

It Ain't Easy
Bein' Green.

But We
Can Help!

WHAT DOES IT MEAN TO BE "GREEN"?

Being green means positively impacting the environment through means of **recycling, conservation, saving on energy,** and using **replenishable products** like **natural fibers** and materials.

WHAT WAYS CAN WE HELP?

RECYCLING

Many of the 2" and 2.5" faux and wood blind products meet green standards, have been recycled from previous products, and offer low to no VOC's.

CONSERVING & SAVING ENERGY

All products offer a form or degree of energy savings, helping you and the earth save on gas and electrical costs.

REPLENISHABLE PRODUCTS

These include bamboo products, woven shades, grasses, textiles, and other fabrics that are earth friendly due to their natural content.

PRODUCTS WE OFFER THAT MEET GREEN STANDARDS:

Bedding Drapes Blinds Shutters Screen Shades Solar Film
Woven Romans Fabric Romans Cellular Shades Pleated Shades
